Dear Bob Dewberry,

It is our pleasure to provide a testimonial for you.

First & foremost, you have been a master at achieving our legal goals.

Customer service is a "business arena," which we & our Clients have always treasured. Good relations, as well as great performance, are your hallmarks. We value both, so much so, that most of the business rewards, which we reap, derive from clients, whom we've serviced, over the past three decades. Your customer service history is remarkable.

Come to think of it, that's about as long as we've been doing business with you. Candidly, we encourage you to maintain your practice, over the future three decades, due to the fact that we wish to continue to retain you, for at least that period of time.

Our comments will be complete, only if mention is made of the value of your advice. Frankly, **our court exposure has been minimized due to our practice of seeking your expert viewpoint**, before proceeding with the execution of a contract or risky project, such as "hazardous material" jobs. In fact, we've been to court, probably about twice, over the previous two decades. Your representation was superb. It reduced the financial exposure, more than we could have achieved without your presence.

Finally, allow us to communicate that throughout the past, we have been pleased to recommend you, to our business friends. Keep up the fine, eloquent, articulate & knowledgeable work & service.

Sincerely,

Richard Rombal
